Ideasys Overview

Sichuan Ideasys Precision Machinery Co., Ltd.

Sichuan Ideasys Precision Machinery Co., Ltd. has more than 2000 square meters of production area, precision machining of various mechanical parts. Business includes lost wax precision casting machining, forging machining, die casting machining, bar, tube, plate machining, etc. Materials cover carbon steel, stainless steel, aluminum alloy, brass, etc. It has advanced production equipment and testing equipment, strong mold design / production, casting production and precision machining ability.

Precision Machinery

Precision Machinery

Machining Equipments

No.	Name	Specification and model	Quantity	Performance Description	Invest Date	Note
1	Machining Center	川一精机 VE855, 台湾谭佳255 4 axis	1	max Working Stroke 550mm	2020.11	Production
2	Machining Center	川一精机 VE855, 台湾谭佳255 4 axis	1	accuracy 0.005mm , working stroke850x500mm	2020.7	Production
3	Machining Center	宇辰精机 V-L855	1	accuracy 0.005mm , working stroke850x500mm	2020.7	Production
4	Machining Center	友嘉精机	1	accuracy 0.01mm , working stroke 370x460mm	2020.9	Production
5	Machining Center	川一精机 VE855	1	accuracy 0.005mm , working stroke 850x500mm	2021	Production
6	Machining Center	JINGYI LV-1165	1	accuracy 0.005mm , working stroke 1100x650mm	2021.1	Production
7	Machining Center	FINECNC V-8	1	accuracy 0.005mm , working stroke850x500mm	2021.11	Production
8	CNC lathe	CK 6150Bx1000	2	max turning diameter 500mm , machining accuracy 0.001mm	2020.1	Production
9	CNC lathe	C40/750	1	max turning diameter 400mm , machining accuracy 0.001mm	2020.6	Production
10	CNC lathe	TS52X	2	Slant bed, turret crane, Max rotation diameter 500mm, machining accuracy 0.001mm	2020.12	Production
11	CNC lathe	6140	1	The maximum rotary diameter is 360mm, and the machining accuracy is 0.001mm	2020.12	Production
12	CNC lathe	6140	1	The maximum rotary diameter is 360mm, and the machining accuracy is 0.001mm	2020.12	Production
13	Bench drill	Z4120	1	The maximum diameter of drilling hole is 20 mm.	2020.7	Production
14	Bench drill	Z4116	1	The maximum drilling diameter is 16mm	2021.1	Production
15	Table tapping machine	SWJ-16	1	Maximum tapping diameter: Steel M12, cast iron M16	2020.7	Production
16	Table tapping machine	SWJ-16	1	Maximum tapping diameter: Steel M12, cast iron M16	2020.1	Production
17	Table tapping machine	SW-U20-MRY	1	Maximum tapping diameter: Steel M12, cast iron M16	2020.12	Production
18	Turret milling machine	136SP19	1	Accuracy 0.01mm , speed 65-4660	2020.8	Production
19	Grinding machine	镁山机械	1	/	2020.7	Production

Precision Machinery

20	Punch	10T	1	10 tons	2020.11	Production
21	Argon arc welding machine	WS-315A	1	/	2020.11	Production
22	Grinder	Horizontal wheelbase surface grinder M7130	1	The width of the working surface of the working table is 300mm, and the length is 1000mm	2021.4	Production
23	Hydraulic press	63T four-column hydraulic press	1	/	2021.4	Production
24	Hydraulic press	20T four-column hydraulic press	1	Pressure adjustment	2021.11	Production
25	Sawing machine	/	1	/	2021.4	Production
26	Wire cutting	YC-3000	1	/	2021.7	Production
27	Laser marking machine Laser power	20W	1	/	2021.7	Production
28	Bench drill	WS-6516	1	Maximum speed 720, minimum 300	2022.1	Production
Total :			30			
Planned machining equipment						
1	CNC lathe	CK 6150Bx1000	6	The maximum rotary diameter is 500mm and the machining accuracy is 0.001mm	2021	Production
2	Rocker drill	50	1	diameter 50	2021	Production
3	Machining Center	855	5	Accuracy 0.005mm , working stroke 850x500mm	2021	Production
Total :			12			

Precision Machinery

Testing equipment

No.	Equipment name	Specification and model	Quantity	Performance description	Invest Date	Note
1	Altimeter	三丰	1	The maximum measurement is 2 inches accuracy 0.001mm	2016.11	Testing
2	Projector	DL320	1	Accuracy 0.005mm	2020.8	Testing
3	Nitrogen pressure test device		1	Max 100MPA	2020.12	Testing
4	Altimeter	三丰 LH-600E	1	The maxium measurement is 600mm , accuracy 0.001mm	2017.6	Testing
Total :			4			

Planned testing equipment

1	CMM		1	800×600mm	2021	
2	Rockwell hardness tester		1		2021	
Total :			2
